

ALTERNATIVE EDUCATIONAL PROGRAMS

If there is a request for an alternative for a required class, the request must be presented to the board of education for approval.

Prior to submitting the request to the board of education, the following procedures will be followed:

1. A request for approval must be submitted to the building principal and district administrator. The request will be considered on the basis of the educational welfare of the child. The school district administrator and building principal will make their determination on the basis of interviews with all parties concerned and on the basis of any evidence submitted to them.
2. A sequentially progressive curriculum that has been evaluated as substantially equivalent to the school district's course of study will be followed. Textbooks may be provided by the school district, along with the school district course of study.
3. The school district will expect the work as outlined in the course of study to be submitted periodically at the request of the building principal. The course will be accepted for credit only and the grade will not be used in determining overall grade point average.
4. The school district will expect the work as outlined in the course of study to be completed.
5. All costs will be borne by the student or parents of the student.
6. The district administrator will make a recommendation to the board of education.

Policy Adopted: January 9, 1985

Revised: April 5, 1993
